

**TAX RATE BY TOWN** These are MIL Rates. This is the rate per thousand dollars of value. To figure out the tax for a specific property, take the assessed value, divide by 1000 and multiply by the rate below. Example: if you are looking at a \$1,500,000 property in West Tisbury in 2014, the calculation is  $(\$1,500,000/1000) \times 5.41 = \$8,115$ .
